

The Process of Hydrodistillation

Flight Spray® is the natural nasal spray. Created by Bioponic Phytoceuticals using advanced hydrodistillation proprietary protocols for the preparation of the herbal ingredients, Flight Spray is a Bioresonant Phytotherapeutic™ healing product.

We start with the finest herbs (Turmeric root and Spearmint) grown in Maui, Hawaii, and add pure water naturally filtered through ancient volcanic rock. Gently heating the mixture releases a vaporous steam that carries the plants unique molecular structure to condense and collect as the hydrosol essence. There are no preservatives used, only the pure natural herbs and water.

Our production facilities use only the finest glass equipment, which gives our hydrosols their purity and distinct quality. Experience the refreshing healing power of Flight Spray.

Directions: Spray 2 or 3 times into each nostril and repeat as needed, during and after each flight. With head upright, insert nozzle into nostril. Spray firmly, quickly and inhale deeply. Exhale through the mouth.
Shake Well Before Use

Notice: Safe To Fly
 Passengers may now carry on up to 4 oz. of non - prescription medicine, this includes nasal sprays

Transportation Security Administration

As seen on:

Flight Spray®

Flight Spray® is the first natural nasal hydration spray formulated especially for airline travelers. Used to moisten the nasal passages and alleviate nasal dryness, Flight Spray supports health and well being. It helps prevent colds, flu and sore throats due to recycled airplane air and close proximity to those with transmittable symptoms. Flight Spray helps to enhance the body's immune ability to fight against infection, and clears the sinuses during long flights. This new natural nasal spray is formulated by combining two of the most effective herbal ingredients (Turmeric root and Spearmint) used in the treatment of nasal ailments. It helps to relieve the symptoms associated with common colds, and chronic sinusitis. The ingredients provide an unsuitable environment for germs and viruses to reproduce. Effective at the first signs of nasal dryness, Flight Spray can be used on the go while traveling, in a crowd, or any time natural nasal relief is desired.

- Great for Dry Airplane Cabin Environments
- Designed for Airline Travelers
- Moistens the Nasal Passages
- Made in Maui from Hawaiian Grown Plants
- Safe and Effective
- 100% Natural
- Helps:**
- Supports the Immune System
- Protect Against Cold and Flu Germs
- Protect Against Sore Throat
- Relieve Congestion
- Clear the Sinuses

Active Ingredients:

Turmeric Root
(*Circuma longa*)

Turmeric Root acts as a natural anti-bacterial and anti-fungal agent. It has a soothing action on respiratory ailments such as coughs and asthma.

Spearmint
(*Mentha spicata*)

Spearmint is a natural anti-septic and restorative herb used in the treatment of fevers, bronchitis, chills, common colds, and nasal congestion. It helps to clear mucous from the lungs and restore normal breathing.
